HELPING MEMBERS SAVE

edfenergy.com/ccs

## An energy efficiency case study

Helping members to make savings in their energy costs is a key part of the value we offer you through your framework agreement. We work with our suppliers to make sure that all of our members have access to the expertise necessary to help them make sound energy saving decisions. We know you need:

- To **REDUCE** costs and CO<sub>2</sub> without affecting your service.
- Investment grade proposals that **STAND OUT**.
- ACCREDITED** information that you can share with your stakeholders.
- Help to find investment **FUNDING**.

### An audit with EDF Energy found simple solutions with big impacts for Derbyshire County Council - Matlock

Ideas are great but results are the most important measure of any successful energy efficiency project. That's the advice shared with Matlock County Hall to help them be as energy efficient as possible by 2016.

The 11 energy and water savings measures identified by the British Standard BS EN16247 audit showcased everyday improvements. These included monitoring and control of heating, lighting and water consumption; common and relevant to many organisations.

That made the business case **simple** and **actionable**.

### Getting your energy saving programme started

83% of CCS customers surveyed expect to plan an energy efficiency project in the next 3 years\*.

If you're not sure where to start, we can help in a simple and straight forward way. That's because the framework Crown Commercial Service has in place provides a unique opportunity for its members to achieve sustainable change.

We've asked suppliers like EDF Energy to actively work with our customers to help them save. The EDF Energy team will provide the **start** point, **support** you through the investment and **measure** the success.

SEE WHAT COULD BE SAVED AT MATLOCK COUNTY HALL ...

22% possible reduction in annual energy bill

potential annual carbon savings of 24%

ESTIMATED ANNUAL SAVINGS UP TO :  
£67,800  
458 tonnes CO<sub>2</sub> equivalent

"We'll certainly be exploring the use of EDF Energy's online service to further identify ways to save money and carbon. The solutions recommended are well within our ability"

Kathryn Warrington - Carbon and Energy Manager, Derbyshire County Council

2 year payback period based on investment of £135k

11 energy and water saving measures identified.

\*source: McCallum Layton survey July 2014

^Savings figures are the estimated savings that could be achieved by Derbyshire County Council by implementing the measures recommended in its July 2014 energy audit. Figures assume that Matlock County Hall site energy usage requirements otherwise remain the same, and are based on their energy prices as at the date of the audit. Individual saving may vary.

EDF Energy is a trading name used by EDF Energy Customers plc, Reg. No. 02228297 whose Registered Office is at 40 Grosvenor Place, London SW1X 7EN, incorporated in England and Wales. The responsibility for performance of the supply obligations for all EDF Energy supply contracts rests with EDF Energy Customers plc.
